International Exhibition on Warehousing and Supply Chain to debut in Bangkok in 2016

After the successful completion of **Asia Cold Chain Show** in Bangkok in July 2015, Manch Communications is set to launch **Asia Warehousing Show** and **e-com Logistics Show** from 6th to 8th July 2016 at BITEC, Bangkok. The focus of these events would be on building & running of warehouse facility and linking it with supply chain operations of manufacturing facilities.

Co-located Event

“I am excited to announce the launch of Asia Warehousing Show with the focus on dry storage and supply chain business. It completes our portfolio of Transport & Logistics sector in ASEAN market. We did a very successful cold chain exhibition in July this year and this was the next logical step for us to increase our footprints in this growing region of the world. The key exhibiting segment would be infrastructure companies, storage solutions, material handling, IT systems, tertiary packaging, transport and supply chain,” said Anuj Mathur, Managing Director, Manch Communications.

A key buyer segment of supply chain business, online retail has been given a special emphasis with a co-located event, e-com Logistics Show taking place along side the main event. “e-com is the future and we believe to be ahead of the time in whatever we do and deliver. We will have a special focus on e-com companies providing online retail of everything and anything in the region. Logistics is the backbone of any such business and we aim to provide a platform to the players to network, source and gather knowledge on the latest solutions available for their operations. Its going to be the first ever event on this subject and I am confident that this event will go a long way in growing this sector.” concluded Mathur.

Asia Warehousing Show and e-com Logistics Show will take place from 6th to 8th July at BITEC Bangna, Bangkok, Thailand.
